

# STANLEY Security Screening Solutions

Protect Your People

## Create a safe and healthy workplace for all.

Managing and screening those who enter your building can be quite a time-consuming and costly process. Without automation, you could have long wait times, a cumbersome process for those entering your facility, and open yourself up to risk.

STANLEY Security's screening solution [powered by CloudGate] helps workplaces, both large and small, ramp up operational efficiencies, foster a healthier workplace environment, and enforce compliance by automating screening and check-in policies.

### Challenges

- Ability to provide a safe and healthy workplace
- Manual processes leading to long wait times and risk of error
- The cost to staffing entrances around the clock
- Opening the organization up to potential risk and liability

### Benefits

- Foster a safe and healthy workplace with a touchless experience
- Save time and reduce human error with digitized workflows
- Decrease costs with automated processes such as digital questionnaires and surveys
- Reduce risk and liability by streamlining ops through a compliance rules engine

**“From health questionnaires and temperature screening to contact tracing and controlling people flow, security solutions are helping organizations keep their people safe...”**

Deborah Wintner, Global Vice President, Human Resources, STANLEY Security

# Screening Solutions

Connect insights with health and safety through an integrated, scalable, and flexible platform.

With an integrated and automated screening solution, you can provide a safe and compliant workplace and reduce costs by no longer staffing your front desk around the clock. It can also help ensure the health and safety of those inside by only allowing those who pass your screening protocols to enter. Lastly, the audit trail provides date and time stamps if you ever need to see who may have come in close contact with someone who tested positive for COVID-19.

- **Streamlined Processes:** Eliminate manual steps by streamlining and digitizing processes, workflows, and reporting.
- **Scalability:** Start with one or one hundred sites. Our screening solutions can expand as your business grows.
- **Integrated:** Using your existing security infrastructure, minimal equipment is needed.
- **History + Expertise:** STANLEY Security has been providing global health, safety, and security solutions and expertise for over 30 years to more than 700,000 buildings.
