

# Workplace Management

Protect Your People. Manage Your Operations.

## Make your workplace a safer and more efficient environment.

With workplace management solutions [powered by CloudGate], you're able to develop and execute your return-to-work strategy, optimize your space, and automate processes to reduce risks and create operational efficiencies. Your workplace becomes safer for visitors, employees, and contractors, while helping your business run and operate more efficiently.

### Challenges

- Long wait times for visitors
- High costs to staff entrances
- Manual / cumbersome processes
- Meeting compliance requirements
- Ability to support a hybrid work model

### Benefits

- Quick and smooth visitor experience
- Save on costs by reducing work hours with automated processes
- Eliminate the need for paper and digitize the check-in and reservation experience
- Streamline and automate operations and provide an audit trail
- Keep a consistent record of who is onsite and easily plan for office visits

**“While this shift resulted from new safety protocols and regulations related to COVID-19, it will no doubt have a lasting impact on the way organizations view and use security for the foreseeable future.”**

-Deborah Wintner, Global VP of HR, STANLEY Security

# Workplace Management

Connect insights with security through an integrated, scalable, and flexible platform.

With an integrated and automated workplace management solution, you can help enhance both employee and customer experiences. And by integrating workplace management with your existing access control and identity systems, you can avoid costly rip and replace activities and ultimately keep those entering and exiting your facility safer.

- **Visitor Management:** Easily manage who enters and leaves your building with automation. Say goodbye to those long wait times for your visitors and provide a better experience.
- **Screening Solutions:** Provide a safer and healthier workplace with health attestations, temperature screenings, touchless check-in processes, and contact tracing.
- **Workspace Reservation:** Create a better hybrid work experience for your employees with room and desk reservations.
